# GRISUTEN<sup>®</sup> *spundyed*

---

- Made in Germany
- Color pigments are dosed directly into the polyester melt
- In principle all colors can be reproduced
- Min. quantity only 5 tons per specific colors
- Environmentally friendly dyeing process (no water)
- Saving energy and resources (no additional dyeing step)
- Produces less waste water which is extremely difficult to clean
- Very good color and light-fastness
- Good reproducibility from lot to lot (DL+/- 1, Da and Db +/-0,5)
- Normally cheaper than stock, piece or yarn-dyed
- Also in combination with FR, UV-stable and antibacterial
